Dear Lofty:

I am writing to confirm my understanding of the agreement which we recently reached in connection with [redacted] request to General Smith for permission enabling [redacted] to attend meetings of the Watch Committee, ONE, and IAC.

25X1A
25X1A

We agreed that --

1. Attendance at Watch Committee meetings is unnecessary, so that the request in this respect was withdrawn;

2. Our office will advise you of any ONE meeting as to which it believes it can make a contribution to the formulation of the particular piece of intelligence under consideration and if satisfied of that fact and that the PSB representation proposed is appropriate to that end, you will arrange for attendance by such representative at such meeting; and

3. You will provide this office (please address to [redacted] with extracts from the agenda of each IAC meeting indicating what NIE and SE's are to be considered. We will notify you regarding any item as to which we believe that we can contribute substantially to the formulation of such NIE or SE, and if satisfied of that fact and that the representation proposed for PSB is appropriate to that end, you will arrange for attendance by such representative at the IAC meeting considering such item.

25X1A

It is also our understanding that, where a National Intelligence Estimate is needed in connection with a project approved by PSB, you will personally consider a request for such an Estimate and, where the need is shown, undertake to request the IAC to make such estimate.
